## WOMEN'S SEWING PROJECT

The women had their opening Friday and Saturday. They had their usual display of undergarments, layettes, shirts, overalls, aprons, dresses, coats, etc. The dressmakers help materially in the designing and dressmaking.

The women do beautiful work. They are making new kinds of buttons, new patterns, new designs in trimmings. There was a lovely child's coat with hat to match. One dress had a collar done in drawn work. A dressy looking one piece dress made from feed sacks and trimmed in rick-rack was quite an attraction. The bed spread and bath room set in candle wick were very pretty.

The supervisor, Mrs. Poynter and her assistant, Mrs. Moore, are conscientious workers. They are very particular about the samples of the different types of work each woman puts in her own notebook. They account for every inch of material, grade all work and inspect each finished garment. They are thoughtful of each co-worker. They are pleasant and helpful in rendering any assistance within their power.

## RETURN HOME

The whole community is delighted to have Mrs. J. R. Kendall and her sister, Miss Sarah Seitz back after one and one-half years of absence.

They took their sick uncle, Jack Davidson, to his Florida home. November 3, 1936 and have been caring for him there. Several days ago he was taken violently ill and Mrs. Kendall wired his folks at Prestonsburg. His nephews, Joe M. and A. L. Davidson, went at once and brought him home by pullman and ambulance. Mrs. Kendall and Miss Seitz came with them. They came through West Liberty about nine Saturday evening. The ambulance went on to Prestonsburg. Uncle Jack is getting along nicely.

Mrs. Kendall and sister, were entertained in the home of Mr. and Mrs. T. H. Caskey until Monday morning when they opened their home on North Broadway. Mr. and Mrs. L. B. Reed entertained them for Sunday dinner.

It is so good to see the Kendall home again occupied. Three welcome.

## WEDS JERSEY MAN

The marriage of Lida McClure Lewis, daughter of Mr. and Mrs. T. H. McClure of near West Liberty, Ky., to Mr. J. Wm. Whitam of Newark, New Jersey, took place on April 23, 1938, in the Metropolitan Baptist church by the Rev. John Camp-ton Ball in a lovely, impressive ring ceremony.

The bride was attractively gowned in natural color lace dress with blue accessories. The groom was attired in grey.

Mr. Whitam has been in the U. S. Naval Communication Services for several years, having been stationed in California, Panama, Honolulu, Samoa and South Sea Islands. He is at present Supervisor of Naval Communications in Washington, D. C.

After a few months stay in Washington, D. C. Mr. and Mrs. Whitam plan to make their future home in Southern California.

## SEVENTH GRADE PROGRAM

The 7th Grade Program sponsored by their home room teacher, Prof. George Cook, was given Tuesday morning.

The play, Ragady Tag Man was opened by that familiar poem by one of the boys. Part of the play was a musical dialogue by two girls called "Unconsciously." At the close one of the girls gave a reading. The pupils had been well drilled and it was a fine program.

## Announce Engagement

The Society column of the Trail Blazer the organ of Morehead College announced the engagement of Miss Ethel Elam of West Liberty and John "Duffy" Watson a former student, now filling an army post in Utah.

Prof. George Cook's sister and husband, Mr. and Mrs. Cam White of Burlington and their daughter and husband, Mr. and Mrs. Percy Ryle of Lawrenceburg, Indiana, spent Sunday with Mr. and Mrs. Cook on North Main street.

Miss Marie Woolford of Grayson accompanied Miss Ethel Marie Elam home from Morehead for the week end.

## A GOOD SPENDER

A year ago the Morgan County Fiscal Court elected a woman, Mrs. Jewell D. Wells, to receive and spend the county's tax money and other funds. On April 21 Mrs. Wells closed her books on the first year's work as treasurer of Morgan County.

The funds of the county are carried in three distinct and separate accounts—the General Fund, Road and Bridge Fund, and Sinking Fund. The General Fund is apportioned according to budget allocations into a score or more separate and distinct accounts which the treasurer must account for separately.

Mrs. Wells began her year's work with a balance of \$4,150.07 in the General Fund, a balance of \$9.82 in the Road and Bridge Fund, and a balance of \$1,822.82 in the Sinking Fund.

She closed the year with a balance of \$905.76 in the General Fund, exactly nothing in the Road and Bridge Fund, and \$827.56 in the Sinking Fund. From these figures we come to the conclusion that if the Fiscal Court will provide the treasurer with funds in sufficient amount, she will be able to pay off Morgan County's indebtedness during her year's term of office, and it would make her proud to have a net, fat to be able to do just that.

## TOWN GETS A STREET

With all members present and voting Aye the town became the owner of the new WPA street which connects Glen Avenue with the State Highway No. 40 through the property of the Morgan County School Board. The Board also voted to change the course of Glen Avenue over this street and thence across the school property to intersect with the street which had its outlet closed in the building of the State Highway just next to the Ford Garage. The lower end of this street will be conveyed to the County Board of Education by a quit claim deed and the Board of Education will in turn deed to the town land for the extension of Glen Avenue to the new street.

The question of some kind of control and parking space for tax drivers was discussed but action was deferred.

Action was considered and orders made to put in passable condition the street between Amos Day and Gordon Adkins.

Board adjourned to reconvene at call of chairman to act on the water works plans which are now expected daily.

## OFFICERS FIND ILLEGAL LIQUOR

D. R. Keeton, a Federal officer, accompanied by Sheriff S. H. Lykins and Deputy Sheriff Kenneth Fairchild and Town Marshall John Helton raided the home of Miles Davidson on White Oak near the Magoffin County line on Sunday evening and found 8 pints of moonshine whiskey and eighty-five empty government whiskey bottles.

Later the same evening Sheriff Lykins accompanied by deputies Kenneth Fairchild, Preston Lacy and Jim Benton and Justice of the Peace Tom Richardson raided the house of Gus Vance also near White Oak and found nineteen gallons of moonshine whiskey in a storehouse near by and a 50-gallon copper distillery complete which had been in operation for some time in a smoke house.

Vance was taken in custody and taken before U. S. Commissioner Riley at Morehead and bound over to September term of Federal Court at Jackson for trial.

## Kiwanis Club in Prospect

A petition was being circulated in town yesterday asking for a charter for a Kiwanis Club in West Liberty. The Kiwanis is doing a wonderful work in many small towns and larger ones too for that matter, and we believe it will do the same for West Liberty if given a chance.

## P. T. A. to meet

The Parent-Teachers Association will hold its last meeting of the year in the high school auditorium Monday evening, May 9, 7:30 p.m.

At this meeting officers for the school year of 1938-39 will be elected. All parents are urged to be present at this meeting.

Virgil Coffee, Arnold McKenzie and Earl Pelfrey, Morehead students spent the week end with home folks.

## GIRL SCOUTS

A group of girls under the leadership of Mrs. J. Blaine Nickell have been meeting for the purpose of starting a Girl Scout Troop.

The worthwhileness of a Girl Scout Troop can be seen from the Girl Scout Motto, Promise and Laws. Girl Scout Motto: Be Prepared. Girl Scout Promise: On my honor I will try: To Do My Duty To God And My Country, To Help Other People At All Times, To Obey The Girl Scout Laws.

1. A Girl Scout's honor is to be trusted.
2. A Girl Scout is loyal.
3. A Girl Scout's duty is to be useful and to help others.
4. A Girl Scout is a friend to all, and a sister to every other Girl Scout.
5. A Girl Scout is courteous.
6. A Girl Scout is a friend to animals.
7. A Girl Scout obeys orders.
8. A Girl Scout is cheerful.
9. A Girl Scout is thrifty.
10. A Girl Scout is clean in thought, word and deed.

The expense for each member is small. Fifty cents a year makes a girl a member of the national organization. The dues for the local troop are only ten cents a month. Each girl is encouraged to earn money to pay her dues as well as to buy her uniform and any other equipment she may want as she goes upward in Scouting.

The boys and others who are interested are sure that the parents would be glad to give their daughters the fifty cents enrollment fee if they could but realize what a great advantage it would be for their girls to belong to this world wide program for girls.

The next meeting will be next Wednesday afternoon after school in the basement of the Christian church.

## A.A.A. PROGRAM

769 have filled out new work sheets this year for first time. This makes 2426 farmers in the program. Farmers who have not filled out a work sheet for their farm should do so at once. We feel as if most all farms have been signed up.

18 meetings were held this month with an attendance of 2000 for the purpose of explaining program. Much interest has been shown in the program. 326 farmers have placed orders for 23495 tons of 47% triple Superphosphate. This 23495 tons of fertilizer would have cost farmers of this county about \$6446.00 had they paid full price for fertilizer. These orders have been sent to the State Office. Probably 100 tons more of the phosphate will be ordered this week. \$1576.18 has been paid to the treasurer by farmers of this county to pay freight and handling charges on phosphate.

The freight rates to Mt. Sterling per ton is \$5.17; to Paintsville \$5.78; and to Morehead \$5.39. A charge of 33 cents per ton is added to each one for handling charges. We were first authorized to collect in addition to above charges \$2.00 per ton. On April 26 we were notified that the \$2.00 collection was no longer wanted. The office will refund to all farmers that paid the \$2.00 per ton charge. YANDAL WRATHER, County Agent.

## CRIMSON CLOVER

170 farmers seeded about 800 acres of crimson clover last fall. A large percent of that acreage produced a nice crop. Most of the crimson clover has been turned by now.

Most of the crimson clover failures this spring were due to late seeding. Crimson clover should be seeded not later than September first and first of August seems to be about the best time in this county.

This last week Mr. E. P. Lewis, Wrigley, Kentucky, turned under a nice growth of sweet clover. Mr. Lewis seeded the sweet clover in wheat about March. 1937. He harvested the wheat and is now turning the sweet clover. This is certainly a good soil improving practice. Sweet clover roots deep in the soil.

## 1937 Farm Payments

1676 farmers have received \$73,845.70 from AAA program as payment for carrying out Soil Building Practices and Diversion Payments. In addition to this amount \$18,340.00 worth of 43 percent phosphate fertilizer was obtained from the program. Better than 100 checks have not been paid—They should be in soon.

YANDAL WRATHER, County Agent.

## MINUTES OF AID MEETING

The Ladies Aid Society of Cannel City Union church met with Mrs. Price Brisco, Thursday, April 28.

Members present were: Mrs. Tom Davis, Mrs. W. T. Stamper, Mrs. W. Benton, Mrs. Katie Sebastian, Mrs. Press Sebastian, Mrs. Carl Burton, Mrs. Inez Donovan, Mrs. Asa Carter, Mrs. Clyde Wells, Mrs. Wise, Mrs. Lee Peyton and Mrs. Price Brisco. Visitors were Mrs. Lonnie Patrick, Coleen Patrick, and J. C. Sebastian. Mrs. Davis had charge of the meeting. Mrs. Brisco read as the devotional Psalm 131. Mrs. Carter lead in Prayer. The two hymns were "Trust and Obey" and "Just When I Need Him Most." After reading of the minutes and the roll call work was begun on the quilt tops and quite a good deal was done. During the social hour the hostess assisted by Mrs. Davis and Miss Juanita Vance served delicious refreshments of angel food and chocolate cake with fruit punch. The rooms were nicely decorated with iris and snow ball. After a very pleasant afternoon we adjourned to meet with Mrs. Tom Davis May 12th at S. C. M. N. O. Sect.

## Sunday Dinner Guests

Miss Lulu Allen and Mrs. Minnie Lacy at White Oak entertained and served a sumptuous dinner on Sunday to Rev. and Mrs. Harlan Murphy and grandson, Cleo, and T. C. May of West Liberty and Miss Beulah Hammond of Cottle.

## Card of Thanks

## FARMERS' COLUMN

### WHEAT FOR WINTER PASTURE

How wheat made excellent pasture on the farm of John Cushmanberry in Allen County is related by County Agent C. S. Bell. In late August 21 acres were sowed at the rate of a bushel and a half to the acre. By early November the field was ready for hogs, and it furnished green feed for 30 head throughout the winter. Toward spring it was necessary to turn in sheep to keep the wheat down. Mr. Cushmanberry estimated that the wheat saved about 20 percent of the feed cost for the hogs.

### CONTROL FOR TOBACCO PESTS

Control for the three important tobacco insects of flea beetles, horn worms and bud worms is outlined by Prof. W. A. Price, state entomologist at the Kentucky Agricultural Experiment Station.

Flea beetles may be kept out of tobacco beds by close fitting tobacco cloth, or they may be controlled by dusting the plants with one part of Paris green and five parts of arsenate of lead. Apply at the rate of a pound to 100 square yards of bed, and repeat at four to seven-day intervals until control is obtained. Dusting also may be done with either barium fluosulfate or derris, applied at the same rate as Paris green and arsenate of lead. Derris should contain 1 percent of rotenone, and be applied at four-day intervals.

Horn worms may be controlled by applications of Paris green and arsenate of lead mixed as for flea beetles, and applied at the rate of seven to eight pounds to the acre. Hand picking may hold the worms in check if there are not many of them.

For bud worms, mix six heaping teaspoonsful of arsenate of lead in a peck of corn meal, or a pound of the poison in 75 pounds of meal, and carefully drop a small pinch into the center of the bud early in the morning. A peck is necessary to treat an acre. Applications should start 10 days or two weeks after setting, and should be repeated every week or 10 days until the plants are topped.

### SHEEP SHEARING TIME

This is sheep shearing time in Kentucky, with most of the fleeces coming off in the first half of May. While wool is low in price, it nevertheless warrants careful handling and preparation for market, says Richard C. Miller in a statement from the College of Agriculture at Lexington. A few warm days in May usually cause a flow of oil known as yolk which puts the wool in good condition to shear.

Sheep should not be sheared when the wool is wet as wool put up in this condition may be badly damaged. Shearing is best done on a clean floor, tarpaulin or bluegrass sod. The floor should be swept clean of all objectionable matter after the shearing of each sheep. Caution is necessary to avoid the mutilation or amputation of a test which might render an ewe unprofitable as a breeder.

All tags and filthy locks which were not removed before shearing should be removed before the fleece is rolled and tied. The fleece is spread upside down after removing from the sheep and the sides turned in and the fleece rolled in a compact bundle. Tying is done with paper twine, using only enough to hold the fleece intact. The tying of wool with sisal or binder twine as is the practice of some sheep raisers depreciates the value, since fibers from these twines become entangled with the wool, cannot be separated and being of vegetable origin do not take the same dye as wool and show up as a serious defect in the finished cloth.

Wool should be packed in standard size burlap sacks made especially for the purpose. Ewes, wethers, ram, lamb and black, curly, seedy, taggy and dead wool should be packed separately. Wool should be stored in a dry place until ready for market.

### POULTRY PROFITABLE

Ronald Bushong is a general farmer in Monroe County in Kentucky and so has several sources of income from his farm, but his poultry alone returns to him a net profit of more than \$75 a month, according to his report to the State College of Agriculture.

For his poultry year, which ended in April, his receipts totaled \$2,065.58 and his expenses \$1,132.25, which left him a net profit of \$933.33 from his chickens.

Bushong began the year in March, 1937, with 1,700 chicks, and in September put in the laying house 750 pullets and cockerels, which up to that time had cost him approximately 30 cents each to raise. About November 1 his flock was culled and blood-tested, and he began selling hatching eggs for a premium of 10 cents a dozen over Louisville prices. This premium of 10 cents a dozen increased his receipts for the year \$175 over what he would have received if he had sold eggs for eating.

In April this year he disposed of 525 hens for \$577.90, and on them had made a profit of \$1.80 each. Bushong has been following the plan of starting each year with a new flock of chicks, testing the pullets, selling hatching eggs and then disposing of the flock in the spring when egg prices reach the bottom.

### Small Fruits

12,850 strawberry plants and 225 grape vines were set out by 4-H Club members in Morgan County this spring.

Va. Mr. Arnett said that in opening new houses stock was often offered for sale in these houses and that he would be glad to discuss the investment with anyone interested.

The President recommends to Congress legislation which will make subject to income taxation salaries of federal and state officeholders.

By some hocus-pocus of reasoning, the impeccable Supreme Court, infallible to some minds, has held that the Sixteenth Amendment to the Constitution does not include in its purview the salaries of these officeholders, among which are the members of the August Court, though the text of that amendment is plain enough to the layman when it says the Congress "shall lay and collect taxes on income from whatever source derived."

Figure that one out, if you can—if you are a mere taxpayer. If you possess the legal mind, you might have all the answers. At any rate, the question has been legally answered, all these years, to work an injustice between that class which is in office and that which is not.—Floyd County Times.

### WASHINGTON NOTES

### WAGES AND HOURS

Despite the belief in some quarters that the Wages and Hours Bill is dead, President Roosevelt last week sought to facilitate its appearance in the House. He was backed by William Green, President of the A. F.

L. who said that any attempt to keep the bill in the Rules Committee would be an indefensible and unfriendly act to labor organization's policy.

The bill, as prepared by the House Committee on Labor, provides for adjustment of standards over a three-year period. Starting with a maximum forty-four hour week and a minimum twenty-five cents an hour in the first year, the minimum wages would become forty cents after three years. The Committee provided no regional differentials.

With congressmen anxious to adjourn, it is generally realized that a special rule is necessary to secure floor consideration of the bill. While Chairman O'Connor, of New York, predicts that the measure will pass "if it gets to the floor," opponents are expected to delay action by the Rules Committee.

### USING GOLD

Announcement by the Treasury that some of the proceeds of the devaluation of its \$1,400,000,000 of inactive gold funds will be used to retire outstanding indebtedness of the Government at the rate of \$50,000,000 a week causes some worry to conservative financiers. While such a use of the money is recognized as entirely proper, it will tend to curtail the amount of Government paper available for investment, inasmuch as some banks have recently reduced their holdings of "Government" bonds, they dislike the idea of having to buy them back at a higher price.

### SIDE-TRACKED

Legislation to "take the profit out of war" will probably be pigeonholed for this session of Congress. The effort has been side-tracked in view of the general opinion that no immediate war emergency faces the United States.

### VENEREAL DISEASE

The House Interstate Commerce Committee has approved a bill for Federal control of venereal diseases. If passed by Congress, the measure would authorize the expenditure of \$15,000,000 in three years.

### RESIGNS

Horace Russell resigned as General Counsel of the H. O. L. C. after Representative Church, Republican of Illinois, charged that he had "franked out more than a million letters" to lawyers and others in the interest of the law practice of a former associate in Government employment. Mr. Russell, who was appointed by President Hoover, said he sent only "about 9,000 or 10,000" letters of recommendation. Saying, "I can see now" that the letters were objectionable and not in good taste, Mr. Russell expressed regret that he had sent them.

### UNEMPLOYMENT

Figures released by the Department of Labor for March show that there was a decline of 50,000 non-agricultural workers as compared with February. Compared with March, 1936, there were 2,450,000 more non-agricultural workers unemployed.

### BUYING ARMS

American manufacturers are receiving inquiries from foreign nations at a faster rate than at any time since the World War, looking to the purchases of planes, heavy guns, coast artillery, men-of-war and all types of armaments and equipment. Among the nations mentioned are Great Britain, France, Russia, Japan, China, Turkey and many South American countries.

### SHIPS

Japanese officials explain that the twenty mysterious ships recently sighted off Dadao Bay, were small whaling ships.

### AERIAL "WARFARE"

The Army Air Corps will stage extensive maneuvers during the middle of May designed to test "defenses" of the northeastern manufacturing area. Something like 200 planes, supported by 400 motor vehicles, will carry out the exercises.

Already planes from the West Coast and the South have assembled at selected airports in New York and Pennsylvania. The air corps has stored 300,000 gallons of gasoline to refuel the planes and vehicles and something like 3,000,000 pounds of freight and supplies. The maneuvers will simulate all details of war time, including air-raid warnings to civilians and "black out" of city lights.

### LOW INTEREST

When the Commodity Credit Corporation sought \$200,000,000 last week, the Treasury reports that the offering was over-subscribed about seven times. The notes carried three-fourths per cent interest. About one-half of the amount will be used to repay an advance of the RFC and the rest will be used to finance the activities of the CCC.

### EQUAL JUSTICE TO ALL

I never forget that I live in a house owned by all the American people and that I have been given their trust.

I try always to remember that their deepest problems are human. I constantly talk with those who come to tell me their own points of view—with those who manage the great industries and financial institutions of the country—with those who represent the farmer and the worker—and often with average citizens without high position who come to this house. And constantly I seek to look beyond the doors of the White House, beyond the officialdom of the National Capital, into the hopes and fears of men and women in their homes. I have traveled the country over many times. My friends, my enemies, my daily mail bring to me reports of what you are thinking and hoping. I want to be sure that neither battles nor burdens of office shall ever blind me to an intimate knowledge of the way the American people want to live and the simple purposes for which they put me here.

In these great problems of government I try not to forget that what really counts at the bottom of it all is that the men and women willing to work can have a decent job to take care of themselves and their homes and their children adequately; that the farmer, the factory worker, the storekeeper, the gas-station man, the manufacturer, the merchant—big and small—the banker who takes pride in the help he gives to the building of his community—that all these can be sure of a reasonable profit and safety for the savings they earn—not far ahead nor tomorrow alone, but as far ahead as they can see.

I can hear your unspoken wonder as to where we are headed in this troubled world. I cannot expect all of the people to understand all of the people's problems—but it is my job to try to understand those problems.

I always try to remember that reconciling differences cannot satisfy everyone completely. Because I do not expect too much, I am not disappointed. But I know that I must never give up—that I must never let the greater interest of all the people down, merely because that might be for the moment the easiest personal way out.

I believe we have been right in the course we have charted. To abandon our purpose of building a greater, a more stable, and a more tolerant America would be to miss the tide, and perhaps to miss the port. I propose to sail ahead. I feel sure that your hopes and your help are with me. For to reach a port, we must—sail—no drift.—PRESIDENT ROOSEVELT.

### A VILLAGE WAG

Every village has its humorist, and Fidelity has no exception to this rule. Our wag was a tenant on one of the larger farms in the bottom, but he lived in a small new house, about the only new thing in Fidelity, down by the graveyard. He was not a native, that is, he was not born in the community but he had come from six or seven miles away and thus had the aloofness that every critic of society is supposed to have. He also had the advantage of being fully grown and married before he moved into Fidelity; thus he did not grow up with reverence for any of our local idols. Every community needs at least one person who neither knows nor cares for the amenities, so far as the rigid rules of society are concerned.

Things that struck us as a matter of course rarely so impressed our village wag. Even a funeral had its comic side to him. He was a born mimic and could set us all laughing by his antics, though he seldom so much as smiled. He had no vested interests to protect and could have his say about everything. When he made his remarks, often a whole situation was clarified for us all. None of the wiser ones could possibly put us right in some of the predicaments that he would settle with a single incisive, though not quotable, comment. He looked upon the world from his tenant's house and found it interesting but funny. There was no malice in what he had to say, even though there was little reverence; he just saw without prejudice.

Sham and pretense fell before him, not because he was a moralist; he would not have known the word if he had heard it; his education was exceedingly limited, though he could spell out the items in the county paper. When others felt that the world was in a bad way, just after election or during a drought, he would take a fresh chew of tobacco and fling out some childish but profound comment that would make us wonder why somebody with more sense and more prominence had not said it. He was one of nature's naturals, to misinterpret Shakespeare rather

slightly. What did violence to his native fitness of things deserved a comic remark. The neighbors knew that he was just a tenant, just a country ignoramus; but they quoted with glee his pet remarks and passed them on to relatives and friends in other neighborhoods. If he said that Fidelity kept sun time rather than railroad time because it was nearer the sun, everybody thought that just pictured the little God-forsaken village away out in the hills. And here I am, a generation away from Fidelity, laughing at his artless wisdom, when I have forgotten some of the wiser things uttered by people of more importance.—Kentucky Folklore Series.

### NYA WORK IN COUNTY

There are 154 youths between 18 and 25 working on the projects at West Liberty, Ezel, Wrigley, Crockett, and Cannel City today. More than three hundred others have worked at some time or other. Approximately 500 youths have been on the payroll since August 1936. The largest number at any one time was during the month of April, 1937 when 291 were at work in the county. These numbers have varied from 102 August, 1937, to 184 in December 1936. There were 197 in July 1937 and 144 in December 1937.

### Paid to the Youth

Since August, 1936, to and including January, 1938, a period of one year and six months these youths have been paid by the Federal Government the sum of \$32,000.00. The monthly payrolls have run from \$1430, in August, 1936, to \$2,000, in December, 1936. The largest payroll was \$2,832, in April, 1937, and the last payroll January, 1938, was \$1,571.

Articles Produced by these Youths During this time the girls in the sewing projects have made 2,500 articles of clothing such as dresses, shirts, etc. The value of these have been more than \$2,000. The material was furnished by the NYA and the clothing turned over to the WPA Commodity Division and distributed to the needy people in the county and especially needy children.

The workshops have produced approximately 1500 tablet arm chairs valued at \$4.00 each, a total of \$6,000. On the East by the lands of Jeff Delong heirs; On the West by the lands of Harris Howard; On the North by the lands of Wash and John Lacy.

This judgment rendered in favor of the Federal Farm Mortgage Corporation for the sum of \$14,000. The purchaser will be required to execute bond, bearing 6 percent interest from date, with approved security, for the purchase money. This 2nd day of May, 1938.

HARLEN MURPHY, Master Commissioner Morgan Circuit Court, W. M. Gardner, Attorney.

### Repair of Buildings

35 rural schools have been repaired, painted and various improvements made about the grounds worth \$1,500.00. 300 desks rebuilt worth at least \$600.

### Odd Jobs

Hundreds of odd jobs have been done by these youths such as loading and unloading building material, cleaning up buildings, building tennis courts and playgrounds, excavating and filling low places about the school, building roads and working streets, and handling commodity foods.

### Buildings

A science building at Ezel and rebuilt basement, excavated and concreted, and other improvements valued at least \$1000.00

### Clerical

Five or six girls have done clerical work in the commodity division and the Farm Security Administration. One girl was promoted from the NYA at \$10. a month to a place in the commodity division at \$30. a month salary.

### THE YOUTH

To many it has meant the first and only job to earn money they have ever had. It has given them training which will fit them for work later and which is worth more than the immediate checks they receive. It has kept many from drifting away into the cities in search of work perhaps where it could not be found for them. It has improved their appearance, their outlook on life, and added to the funds which the family badly needed.

### 150,000,000 TREES

Amarillo, Tex.—More than 150,000,000 trees and shrubs are to be planted this year by the United States Soil Conservation Service in the semi-arid plains of the "dust-bowl" area in the greatest tree-planting program in the history of the nation. The trees are useful as windbreaks in the Government's fight against duststorms.

### RELIEF

May 2.—Mrs. Anna Bradley who had been in Ironton, Ohio, hospital, and who underwent a serious operation has returned home and is able to do part of her work.

Born to Mr. and Mrs. Victor Ferguson a fine boy—Robby Franklin. Mr. and Mrs. Merdie Ison were the Sunday guests of Mr. and Mrs. Leander Ison.

The 4-H Club gave an Easter egg hunt. There was a large crowd and plenty of eggs. After they hunted the eggs they played their music and sang and also played a ball game. Roy and Arlie Fyffe were the musicians with their guitars. Everybody went home happy hoping that the club will give another egg hunt next year.

Mr. and Mrs. Lee Ison and family and Sarah M. Bradley, Jeff Hamilton and Angie Brown were the dinner guests of John Hamilton Sunday.

Mr. and Mrs. V. B. Hill and daughters, Wornie and Maggie, were visiting their son, Ray Hill Sunday.

Born to Mr. and Mrs. Clark Keeton, a fine girl.

Born to Mr. and Mrs. Harold Holbrook, a fine girl—Genevieve Fay.

Admission 15c for pupils; 25c for others. This program is sponsored by the Future Farmers of America.

Rehearsals on "Trouble in Paradise," the Senior Class play, are progressing very successfully. Everyone is reminded to plan to see this play which will be presented on May 19.

Ted DeLong Gets "Excellent" Rating

After trying for first place in the district music contest at Hazard, Ted DeLong was invited to the State contest to compete with the best high school bass singers in Kentucky.

Although he lacked the years of training that most of his opponents had been fortunate to receive, Ted's natural ability was sufficient to gain for him an "excellent" rating. Out of the twenty contestants in the bass solo, only one, Ted's rival from Hazard, received the higher rating of "superior."

**A GREAT SCHOOL MASTER**

The years are wonderful tutors; Each day a lesson is taught. At evening I treasure up knowledge

That at morning I would not have thought.

Time is a wonderful teacher

And each of us goes to his school. The wise men are taught by reason. But experience must teach the fool.

We are wrought over flaming forges.

With blows from the smith we are beat.

We are tempted by tempters who meet us.

To make our mettle complete.

And if our mettle is brittle

We are hammered, tempered, and cooled.

The wise men need no alterations.

But sorrow must soften the fool.

I am thankful of this teacher

Because the lessons are free. His salaries are our sorrows. That come if we do disobey.

Each day we are all instructed

And freely we all go to school. The wise men will heed to instructions.

But the hickory must counsel the fool.

**NEW SCHOOL LAWS**

Frankfort, Ky., April 26, 1938

To School Administrators:

Inclosed please find a paragraph giving information concerning each of the bills affecting schools, passed by the General and Extraordinary Sessions of the Legislature.

The first twelve bills were passed by the Legislature at its General Session and will become effective the first of June. The last five were passed at the Extraordinary Session. Since none of these carry an emergency clause, they will not become effective until the tenth of July.

I have prepared and have in the hands of the printer a bulletin containing these bills, together with other information on the supplement to the 1934 code and court decisions passed on the 1934 code. We hope to have this publication in your hands on or before the fifteenth of May.

Sincerely yours,  
GORDIE YOUNG, Assistant Superintendent of Public Instruction.

**SCHOOL LEGISLATION****SENATE BILLS 1938**

S. B. No. 11—Provides that no school stop before passing the front door of the courthouse at West Liberty, Kentucky, unless on public highway, unless the school bus is stopped for the purpose of receiving or discharging passengers.

Prohibits a penalty of not more than \$500 or imprisonment for not more than six months or both, for any person who obstructs or impedes the operation of a school bus.

S. B. No. 118—Lowers the first term of school from 250 to 200 white children for maintenance of an independent district and provides that districts make application yearly.

S. B. No. 166—Provides that children of soldiers, sailors, and marines who were killed in action during the World War shall be admitted to state institutions of secondary or college grade free of tuition. The law is to be operated by the State Board of Education. There is appropriated \$1,400 for each year ending in 1939 and 1940 and not more than \$150 to any one child in any school year. The money is to be paid for paying matriculation fees, board and room, rent, books, and supplies for children not under sixteen and not over twenty-two years of age.

HOUSE BILLS 1938

H. B. No. 11—Provides that instead of all the remaining members related to a person close than a second cousin, only a majority of board members are required to vote for a person in order that they may be employed by said board.

H. B. No. 49—Pays county board members a per diem of \$5 and actual and necessary expenses for attending meetings. The sum so expended is not to exceed \$100 per year.

H. B. No. 51—Prohibits the board of education or the superintendent of any city of the Commonwealth from adopting rules and regulations, or having rules and regulations, or policies in restraint of marriage of any public school teacher who has had five years or more teaching experience within the public schools of the Commonwealth.

H. B. No. 80—Provides that trucks used solely in transporting, hauling, or carrying children or persons employed in the school may secure a license at \$4.50 per year. When license is procured at this price, the bus may be used for any other purpose.

An affidavit must be filed with the county clerk to the effect that the bus will not be used for any other purpose and there shall be printed in 11.80 on the bus the words "school bus" in letters of color which may be clearly seen.

H. B. No. 92—Provides that boards of education of independent school districts in incorporated cities where the district boundary extends beyond the city boundary may by concurrent action with the county board of education transfer part of the independent district to the county school district, provided the transfer does not reduce the number of children in the district below 250.

H. B. No. 253—Provides that the State Board of Education shall have authority to renew teaching certificates which expire on June 30 of any year, provided the applicant has completed and filed with the Superintendent of Public Instruction the additional requirements by September 1 of the year in which the certificate expires.

H. B. No. 357—Provides for the ad valorem taxation of Distilled Spirits by counties, cities and school districts at not more than \$1.25 on each one hundred dollars of assessed value of such spirits. This is effective in cities of the first class only.

H. B. No. 358—Provides that cities of the first class may levy from four to ten cents for school purposes to be placed in a fund to accumulate over a period of years, which accumulated sum shall be used as a school building fund.

H. B. No. 394—In third class cities boards of education are authorized to contract with private institutions for instruction of students of the city schools to obtain a commercial education.
